

To our valued patients:

We want to thank you for choosing Oregon Ear, Nose and Throat Center for your ENT care. Our physicians and staff are committed to providing you the best care possible.

We wanted to explain how our services are billed. When you see the physician, you will be billed for their professional services provided during your exam. You may also receive an additional charge if the physician performs a procedure during your visit. Some of these procedures include a nasal endoscopy, (this allows the physician to better visualize your sinuses as well as treat certain sinus conditions), cautery of the sinuses to control bleeding, cerumen (ear wax removal), laryngoscopy for the evaluation of sore throats and throat lesions, and binocular microscopy , which involves the use of a microscope during an examination of your ears. When you receive your explanation of benefits from your insurance carrier, you will see these items listed and billed separately as part of the services you received.

We have had many patients question this on their bill so we thought it would be helpful to explain this prior to your appointment. Thank you.

Oregon Ear, Nose and Throat Center staff and physicians
